

Changes to the Age Pension are coming.

Will your retirement be affected?

The eligibility rules for the Age pension are changing from 1 January 2017.

To make sure you're not caught offside by the new rules, it's important you have a game plan in place before they kick in.

Come to one of our free, no obligation information evenings to find out more about these changes, whether you could be affected, and what you can do to reduce their impact.
